I start a new job on Monday and until the first of next year when our lease is up, I'm going to have to commute an hour and a half each way, for a total of three hours a day. I need some good suggestions for music to put on my iPod; there's no way I'm going to want to listen to the radio the whole time.

I don't blame you about not wanting to listen to the radio the whole way there and back. In the mornings especially, it is nothing but talk, talk, talk. What kind of music do you like? If you have a smartphone, you could always build a playlist and run Pandora.
