To all Pi People. There are two good websites dealing in turntable parts and info, The Analog Dept. and The Vinyl Engine, especially the vinyl engine, they have just about every manual for every TT ever made, going back to old Empires and Garrards and lots of esoteric stuff too Like Rabco manuals and Lenco Pro stuff. And The Turntable Factory has good used low priced tables such as Technics sl 1600 and Dual 505's, stuff like that. These are sites I have personal experience with and know to be good and useful.
