The time is almost here. It has been a really long wait. Who is going to see Fifty Shades of Grey movie this weekend? When are you going? I think we will head to the midnight showing.

What is the movie about? Looks like it might be good for "date night," especially for Valentines.

I still don't know whether or not I even want to see this. I have never read the book, and from what I hear it is pretty risqué. This may be one that I wait a week or two to see the reviews before I decide.

I went and watched it last night. Wow... it was good. Thankfully it wasn't as graphic as the books. The theater was packed. I bet it breaks records.

The critics have pretty much said it's not the book. That something is missing from the movie, either chemistry or acting. LoveJB, did you find it more of a romance than anything else?

I went to see it a couple of days after Valentine's Day and it was amazing! I wasn't sure after seeing the trailer for the movie if the characters were going to fit, but they definitely played their parts well. I'm just sad because now we have to wait till 2017 and 2018 for the sequels to come out. I don't know if I am going to make it that long!
