I can't believe he's dead.
Leonard Nimoy, Spock of 'Star Trek,' dead at 83

I could have sworn I just saw a commercial a few days ago with him in it. I know it was made before his passing, but still, it confuses people.

He was my favorite character on Star Trek.

This man was certainly a legend. He played the greatest role in movie history. Rest in peace.

I loved Leonard Nimoy in Star Trek! I was actually introduced to his character through Star Trek: The Next Generation, and then I went back and watched some of the original series. I was saddened to hear of his passing but he lived a fairly long life.

It is a shame.

I saw the latest Star Trek movie, where he was a guest Star. He played Future Spock. Seeing him

that recently in a movie, it is hard to believe he I'd dead.

I never really like the Star Trek series after they changed to cast. The Spock/Kirk series was unequivocally the best.
