I've ways loved heavy metal ever since I found out about Five Finger Death Punch. What are your favorite metal bands?

I've become a fan of heavy metal and 80's hair metal since I got married, although I was more of a classic rock fan to begin with. I like Metallica and Megadeth in particular, but I also like Great White, especially their Zeppelin covers.

Metallica is amazing. I remember playing football and enter sandmanbwould play as we ran through the banner. I really loved them along with pantera.

Tool, Nails and Manson are staples for me if I'm coppin' a tude.

I'm a big fan of Tool, too, and the 'sister band' the front man has.. what's it called?

<Googles>

A Perfect Circle!

Maynard is an odd one, though. I've yet to see a concert where he actually stands out in front.

He lost his mother when he was young, which is why his songs are so dark.

I never knew that! I can't even imagine. It's wild that someone who seems so shy would grow up to be the front man of such a famous band. He's a very talented singer and songwriter, though.

Megadeth is probably my favorite band! Especially their early albums. Rust in Peace, pretty much every single song on that album is stellar. A great majority of my favorite Megadeth tunes are on that album.
