ciao
non riesco a trovare la tromba h290 / h290c
dove posso trovare le misure interne esatte per costruirla in legno
oppure ci sono alternative

Hello
I can not find the trumpet H290 / h290c
where can I find the exact internal measures to build in wood
or there are alternatives

The shape is proprietary. I can tell you this though - It is oblate spheroidal at the throat and transitions to elliptic cylindrical at the mouth.

ciao
per il driver b&c de 250 va bene la tromba h 290
oppure va bene la b&c me45

Hello
for drivers b & c de 250 fine trumpet h 290
or fine the b & c ME45

Most compression drivers work well with the H290C waveguide. That said, the B&C DE250 has been specifically tested and approved. The H290C waveguide and DE250 driver are ideal for one another.

The best way to get shipping quotes is to put an item in the shopping cart and begin the checkout process. It will ask you for your address and use that to calculate shipping by several methods and shippers. It doesn't ask for payment information until after it has calculated shipping costs, so this is a good way to check prices.

We also have a freight forwarder available. When you enter a non-USA address, the Bongo freight forwarder banner appears, allowing you to create an account. When you get to the checkout phase, click the Bongo banner, and create an account. They will provide a USA address, which you will then use in the Pi Speakers cart, by clicking "change address" and entering the Bongo-supplied address. This will then start a freight price recalculation in the shipping cart, and your prices will be much lower.
