Just curious how the weather is in your area. I am in Indiana and our winter is extremely mild so far. We have basically had no snow so far. My fear is that the sky is going to fall one of these days and we will be buried alive in snow.

I live in New York and the weather has been very strange so far. The day before Christmas we had the windows opened in the house and now not even two weeks later we are freezing with the temps barely reaching the low 20's.

I live in Georgia and our weather has been mild, too, but that's pretty normal for us. We rarely ever see snow. If anything we might see an ice storm in January but we didn't even see that this year.
