What are your all time favorites in the acting community?  
Young or old.

I favor an old one myself, by the name of Danny Kaye; It is always fun to hear who other people would pick.

I love Christopher Walken in everything he's been in. He has such presence and that voice! Also he did that music video a while ago which I thought was brilliant.

My favorite actress is Melissa McCarthy. I think that she is one of the funniest actors around. I've watched her in everything that she has ever played in and I haven't been disappointed yet.

I have quite a number but Denzel Washington and Jessica Alba are my favorite actors. Talk of great personalities as well as diversity and these two names quickly come to mind.

Johnny Depp and Matt Damon are my favorites. Depp especially because he brings believe-ability to unbelievable characters and story lines. He doesn't like the conventional and I like that.

I cannot quickly think of any old folks but Kevin Hart and Samuel L. Jackson are my two favorite actors. I might have forgotten a few old folks here and there but there are seasoned ones who were so good at what they did even when assuming difficult unbelievable characters or roles.

Johnny Depp is a good actor probably in a class of his own. Does he also do voice overs for animation movies? Colin Farrell was a good actor back in the day and he somehow seems to have found another hobby lately.

I have to go with Tom Hanks as my favorite actor. I can watch and re-watch anything of his. I just re-watched "Forrest Gump" for the first time in about 10 years and loved it all over again.

As for my favorite actress I can't choose between Susan Sarandon and Meryl Streep. So I won't.

Moss24, I'd completely forgotten that Jessica Alba existed. I haven't seen her in anything in a long time.

My favorite actor ever is (was?) Heath Ledger. He had the ability to play any role and make you really believe it. RIP Heath.

Lupita Nyong'o and Natalie Dormer are absolutely phenomenal.

He's definitely in a class of his own. I think he's a great actor but I prefer it when he does roles that are a little more "normal". He did that one animated movie, Rango or something like that.

I think Helena Bonham Carter has great range and phenomenal acting skills.

Shoot. This is a really hard question. Off the top of my head, I'm going to say Leonardo DiCaprio. He really commits to every role and has a lot of versatility. He doesn't seem like he'd be my favorite guy to hang out with (that would probably be Ryan Reynolds), but there's no denying that he's got acting chops.

Aw, I think Leo would be fun to hang out with...as long as he doesn't try to talk politics the whole time. Although Ryan Reynolds (and Blake Lively) would be more fun, I'm sure.

I'll agree with you on Leo's acting chops though. He's really a step above a lot of people. I'm glad he finally got his Oscar.

You guys have already named a lot of great people. I would probably say one of the actors/actresses who have already been mentioned but I'm trying to think of some other ones. Let's go with Robert De Niro and Saoirse Ronan.
