I am looking for a tube preamp with a phono stage. A stand alone phono stage is also okay. I ran across the Seduction kit at the Bottlehead site and that might do but what others are there? CBJ

Try Tubes4hifi.com He has a beautiful line/phono kit that uses 6922's; highly regulated driver stage and passive Eq.

Audio Electronic Supply, the parts/kit division of Cary Audio, has the PH-1 phonostage, which I have used for years with my Rega Planar 3. Hagerman Technology ("Hagtech") also has several. I haven't heard the latter, but lots of people have good things to say about them.

Don't know how I missed seeing this earlier. Sorry.Audio Note kits offers a preamp kit which

includes a phono stage. Even though I sell the finished product, I'm thinking of building the kit for fun. I'd like to hear it and the Seduction/Foreplay combo in the same system some time.
Audio Note Kits
