How has the weather been so far this year where you live? I can't believe how warm it has been here in the Northeast. This is the first time in a long time that I've already had to install the air conditioners. I think this summer is going to be unbelievably hot.

So do I. Summer started early over the weekend with temperatures over 100, and they are promising a high fire season this summer. Have to keep the weeds in check.

Temperatures are high as well here. There have been short rains for the past two months so I do not mind the heat for now.

Hopefully, no sun burns for me.
