I have always been a huge fan of epic movies though the last I watched of this was Season 4. I haven't been able to get myself to getting up-to-date with movies lately but can I pick it up from season 6 since it is the latest? How interesting has it gotten?

It has gotten very interesting and I think you might be a little confused if you don't watch Season 5. Plus, there has been talks that Season 7 is going to be the last so it's worth it just to watch all the seasons in full.

I've missed out a lot on this, too! I was glued to the first 2 seasons but, after that, work had completely taken over. I'll take my time, though, I hate watching in a rush.
