Do you think that the way that Batman Vs. Superman ended there is going to be a sequel? I think that there is no way that Superman can stay dead and this has definitely opened up the door for another movie.

You know what, I missed out on watching this movie in the cinemas and I was so mad at myself for dragging my feet all week long. There is definitely going to be sequel and I think it will be happening sooner or later. Is 'Dawn of Justice' the latest in the sequel?
