Has anyone seen the trailer for the new 'Beauty and the Beast' that's coming out on March 17, 2017? I can't wait to go and see it. It looks like it's going to be even better than the animated version, if that's even possible!

I haven't seen the trailer but I will definitely start looking, now that you have mentioned it. I saw good reviews about the animated version. March 2017 is quite distant, so to speak.

I have seen the trailer, and I am eagerly awaiting the movie. I am a very big fan of all fairy tale films, and I love how everyone has their own take on what the story means. Can't wait!

Beauty and the Beast 2017 was a good movie. There was another movie after this one, I think it was the continuation but I didn't like it the way the first beauty and the beast made a lot of sense.

That sequel didn't live up to expectations. Poorly written story that makes it look like they didn't take their time before producing that movie.
