A friend suggested that I should watch a series called Luther and so far, it has been exciting. It just dawned on me that it is actually about 6 years old. It is full of suspense and thrill with Idris Elba (John Luther) starring as the main act.

A 6 year old show is considered an oldie? If that's the case, Frasier is a dinosaur.

It is cool to stumble on an older show that you never watched before though. It's like you discovered a hidden treasure.

Well, 6 years is not such a long time but I think there was more creativity back then as compared to now. I have a couple of movies that I watched about 7 years ago and it could be the right time to do a recap.
