I have a Clearaudio Master Solution table with Tangent LT Tonearm and a MM Virtuoso cartridge.I bought a nice EAR834P Tube Preamp to go with it.Now I need to have it all properly set-up and can't do a reasonable enough job on my own.I live in Port Jefferson, Long Island, N.Y.Is there ayone on this forum within driving distance that could do this for me. I will happily pay for your time.Regards,Russ

I bought it from Audiogon. A company up in Canada if I remember correctly.

New York Audio Repair in Brooklyn is the only pro-outfit I would trust if you want to pay. If you want to give it a try with some help I go by Mather Hospital ocassionaly. My e-mail is on the post.

manualblock,I would like to give it a try if you think you can offer some expert guidance. I live about three minutes from Mather Hospital and would really be grateful for the help. New York Audio Repair won't come out to my house and transporting the table an hour each way in my SUV kinda' defeats the point of a delicate and meticulous TT set-up.I don't see any way to get your e-mail. Nothing to click on.Please contact me privately at rrubman@alloysinternational.com and we can talk further. I promise you won't regret helping out an audioholic in need. You'll find I'm a good friend to have.Best Regards,Russ
