Subject: Do you believe in miracles?

Someone once told me that miracles are just science that we don't understand yet and I know where I stand on that, but I just want to find out if anyone else here believes in 'miracles' whether they be financial miracles, physical healing or whatever. What are your thoughts on that?

I don't know about anyone else here, but I do believe it's possible to experience these things in your life, it just depends on how much belief you have. What you believe usually becomes true for you. That's the truth of it.

There are many beliefs out there and I always say to each their own. I would say that miracles indeed do happen and it depends on a person's belief system. There's unity in diversity, or so they say.

You're so right. And I have discovered that in life, what you believe with all your heart usually becomes true for you - so if you believe in miracles, they will keep happening for you.
