Hey guys, I love to listen to music stations that play a variety of genres. However, I know that some people prefer to listen to a station that plays strictly one genre. What is your preference?

I'd say that I'm one of those people that listen to various genres depending on what I am feeling at a particular point in time. I used to be a rock fan sometime back and I'd only listen to a station that played this genre. I did this for about 4 years.
