This may seem like an odd question, but are there any movies you watched solely for the soundtracks? I know you can simply just stream the music, but some people just watch the movie.

Well, I personally have never done that. I love movies and if a good movie just happens to have a great soundtrack then it's a bonus for me.

I really liked the music in Guardians of the Galaxy. The oldies really take me back. I will probably watch the second installment just to see what music they play in it!

Well, there aren't a couple of these movies nowadays so I tend to just concentrate on the plot. I also love the oldies so who remembers the movie 'Honey' by Jessica Alba? I watched this movie solely because of the beautiful soundtrack.

Mamoss, who hasn't seen "Honey"? That was one of the best movies to ever exist.
