Growing up I never could have imagined how my life would be without radio. There were shows and weekly programs that I listened to regularly but now I find that I have less and less time for the radio because there is now so much else going on. What about you? Do you still listen to the same amount when it comes to radio?

Hi, I still listen to a lot of music via XM and FM. Though often I just like peace and quiet.

I can't imagine life without radio. I used to be an ardent listener a few years back. Nowadays, I will only listen when driving or taking my evening walk around the neighbourhood.

Yes, I do listen to the radio less than what I used to. However, this is mostly because I can listen to anything I want on music apps on my phone.

I think at some point, radios were more popular than TVs and people got used to this. I wouldn't imagine life without radio, considering that I grew up to see everything change, including the content and scope of reach.
