Am I the only one who's a huge fan of music covers? I used to spend most of my day watching YouTube artist covering my favorite songs.

I don't mind covers, but the original is normally better. If the artist is bringing something new to it though, like a new arrangement or backing, it's not bad.

vhfspeaks, sure there are times when the original song should be left alone because it's so great. However, I agree that I like when the arrangement is changed.

Covers are great! Sometimes I really like a song, but I listen to it so much, that it becomes too predictable and unexciting. However, I can re-experience the wonders of the tune by listening to a cover. It's like refreshing the excitement of a great tune that has gone stale in my mind.
