Subject: No Rental, Now What?

My kiddo wants to play the guitar, but before I pay for one, I want to make sure the interest will stick! Unfortunately, there aren't any rental stores near me with guitars (flutes, trumpets, pianos even, but no guitars). Are there any other affordable ways to try the instrument?

I understand wanting to rent one before you buy one. I always rented my instruments through my school. However, you should check out Music Rental Central or another site that rents instruments.
