I have a BIC80z and a voice of music 369-2 from 1967. Neither one of these turntables work. At least the VOM makes some spinning noise. Anyone need parts let me know.

Do you like old Genesis? Your nickname makes me think you do.

Yeah, I have all of their records on vinyl too. Ever heard of "Spot the Pidgeon?" They recorded it in 1978, and distributed it through WEA of Canada on the Atlantic label. It's not on the usual catalog lineup, so I thought you might find it interesting.

Sounds like we have the same collection. That's the "Genesis to Revelation" version I have too.
