Which Sirius stations are your favorite? I always find myself going to Elvis because, well, who can't get enough of the King? I also like the decade stations, no particular favorite though. What stations do you wish they had?

I only visit a specific artist once in a while. Most times I go to channels like PopRocks when I'm feeling nostalgic or the Octane to find new songs and artists. It is a nice, sweet surprise to find something new that I like because it seems rare these days.

This is actually the first time I've heard of Sirius. I see that the price is rather expensive, though. Is it worth the service? After all, we already have options like Spotify or iTunes which also offers radio channels and song recommendations.
