Hey guys. What is your all time favorite music streaming service? There are some really good all-in-one entertainment platforms out there today. Which do you prefer?

I tend to go for the free ones. Spotify has always been one of the best in my opinion. It has all the bells and whistles we've come to expect from music streaming services.

Amazon Prime Unlimited because there's a wide selection and it works well with Alexa. To me, it's just easier to keep everything together on one platform from music, to movies, to books, to shopping.

Does You Tube Count? That's all I use and I never have a problem finding what I need. I have even found good music by accident on there.

I think YT counts, Kingfish. I don't know why it wouldn't. I do that from time to time too. I usually go for Spotify, but Amazon Prime Unlimited sounds pretty awesome. I might have to give that a try.
