Which do you think were the best movie soundtracks of all the movies released in 2017? I liked the music from Guardians of the Galaxy and Wonder Woman. What about you?

Those are both great soundtracks, especially Wonder Woman. I have to say that Baby Driver probably takes the cake for me. The score for mother! was really interesting too.

Tikki, I enjoyed Wonder Woman's soundtrack too. It's one of my all time favorites.

I just saw the movie and I loved the soundtrack for Star Wars The Last Jedi. I particularly enjoyed "The Supremacy."

I really enjoyed the soundtrack for Star Wars: The Last Jedi, too! It was one of the few things in the movie that really felt like "classic" about it, you know? I pretty much love everything John Williams does though.
