hi every one hope every thing fine
i have a pair of b&c 21ds115 4ohm driver
and want to make a subwoofer which work good from 25hz to 120hz
i realy need good bass near to 60hz to 120hz
recently i make a box its 18cubic feet and it good 15hz to 70hz not above so itslack in punchy basses mid basses
thanks
