Subject: ZMA etc files for a 2226H?

Can anyone share some ZMA, FR etc files from a 2226H (ideally new-ish... but anything will do) as I'd like to do some simulations without measuring mine.

I'd use them with XO software.

Thanks

There's a ZIP archive with various ZMA files in the "Measurements" directory on the PiSpeakers.com website:
ZMA.zip

ZMA file made from free-air measurements of a 2226H, but that wouldn't be useful for you anyway.
