Has anyone been to the theater yet to see It Chapter 2? I'm not a huge horror movie fan, but I do love Stephen King. I'm planning on going to the drive-in this weekend to see it. I think it will be amazing on the big screen.

I saw the movie and it was okay. I liked the first movie better as the kids really sold it better than their adult counterparts. It wasn't a terrible movie, though. Be prepared to be there for a while because it sure is long.

I watched it too and thought it was not worth the money. I wish I would have waited until it came out on DVD. The first one was a lot better. Sometimes I think they need to leave well enough alone.

With most movies, that what I do. I wait for them to come out on DVD. I'm not a big fan of theaters and their prices.

Anything by Steven King I like, and I really like IT.

I know I'm a little late joining in on this discussion, but I thought the movie was mediocre. The first IT movie genuinely scared me. This one felt like a chore to get through. I don't want my horror movies to bore me! :lol:
