Ever countered that legal drama? It's an American series that I thought would bore me, but apparently, it didn't because of the witty comebacks. Watching the first episode hooked me up, and I think it's somehow a good representation of how the corporate world works outside the books. It has a lot of seasons now, and I still have a long way to go. Do you have a favorite one?

Is that the one that Meghan Markle was in? I've never seen it, but I've been curious about whether it was any good. I guess it's worth watching since two of you seem like fans. I used to watch The Good Wife with my wife. It went downhill after the third season, so we stopped. That's probably the only legal drama that I've paid attention to these past few years.

If you liked The Good Wife then you'll probably like Suits too. My wife and I enjoyed both shows.

I'm not into series nowadays, but I liked Suits, and I'm still watching it. It was nice that the drama was also seen in the workplace and didn't only focus on romantic relationships. Harvey and Mike remind me of Sherlock and Watson!

Suits is a good series, and you get to know the characters the longer the film goes. There's a betrayal aspect that got me suspicious, which made me wanted to watch more. I haven't had a favorite one, but some episodes make me want to binge-watch.
