If this is in the wrong forum, please move or contact me to move.

I am looking for a used PL259 coaxial plug. If someone has a used one in the old parts or junk box they don't mind parting with, it would be appreciated.

Please pm me. Thanks for your consideration.

That's the connector on all the old citizens-band radios, isn't it?

Yes Wayne. I have an old Tek 535A scope and need another one for the CA plugin. Somehow, I lost a cable from yesteryear. I think I have enough RG174 coax.

I love this model since college. Replaced some electrolytics and still running great.

Cheers

Thanks Wayne. You are most kind and generous.

pm sent.

Cheers all.

Good show Wayne. For those of you that need more even Amazon has them. Several types and congiurations.

https://www.amazon.com/Connectors-Connector-Reducer-RFAdapter-Compatiable/dp/B07W1ZNZXC

EDIT: Dang picky computer stuff (no I won't crunch this one) it lost the text three times on me.
