Has anyone ever listened to this guy? He does covers of classical music in a metal (ish) kind of style. As a metal fan myself, I think it's awesome. Other people think it's an insult to artists like Mozart, Beethoven and the like.

Don't get me wrong, I do like the original versions too. He just added a nice twist to it :d

What do you guys think?

Here's the playlist:

He's very versatile. I've liked his heavy metal born again Christian covers of lunatic, (the gargoyle) Kenneth Copeland. Perfect backdrop to the raving reverend.

Andre is a solid musician! I love when he plays along with the Nooran Sisters (from India), and I like his soundtracks to "Karen" videos.

Oh! I have never heard of this guy before. I checked out the playlist you shared and listened to it. I loved his version of Beethoven's Moonlight Sonata. Thanks for sharing this :)
