What are your thoughts about the TV show? As a huge Star Wars fan, I honestly was not impressed. I did like the show somehow; however, I was expecting a story about him, his childhood etc. Instead, it was more about his conflicts with Darth Vader.

Did anyone else feel the same?

What network is it on?

I would love to watch all the new Star Wars and Star Trek series but they're all on networks that I don't subscribe. So I'm waiting, hoping they get put on one of the networks that I do subscribe.

I actually liked it a lot! I also had different expectations, but in the end, I really enjoyed watching the show. Although I have to say that some episodes were somewhat shorter than the usual Star Wars episodes. But other than that, it was pretty good.
