Weird. This song pops into my head. Last time I heard this song was in the 1960s and I don't like this song. And I was not thinking about this song. The brain is hard to figure out.

Yeah, those Lemon Pipers were monster hit makers.. Right? Right up there with the Rolling Stones or The Who. More so, one hit wonders that blissfully faded into history with their pop sensibilities.

I get those head tunes like you that are like a chronic itch you can't get to. Everyone does I think. All those little music files we keep stored in our noggins. Good, bad or indifferent seem to leak out at times. Either to give pleasure or torment seemingly.
