Please help me as I have been unable to replace the cartridge. Cannot find a business in Albuquerque, NM that sells the cartridges. Purchased in 1969 in Germany.

Hi, I have a Elac Miracord 650 with a Elac STS 344 cartridge. It is a tall cart but uses standard 1/2" mounting. The head shell allows for cartridge alignment, if the arm allows for VTA setting then you can use any cartridge you desire. I can recommend the Shure M97xE as it has a very neutral sound and can be found at

Enjoy!
