Hi all, It is time for me to get a decent turntable and start buying LPs. My budget will be around 300-500\$. Can you please let me know your suggestions? I am pretty clueless so any help will be appreciated Thank you nikolaos

I've never seen a table on Audiogon in your range that could exceed a new Technics 1200. One from Musicians Friend and a \$100 cart like AT440 would be an excellent set-up. A great upgrade path exists for the table with the damping trough from KABUSA as funds allow. Then perhaps a used Grado Sonata. You can read my short article on tweaking the suspension farther down the road.

I second Bill's suggestion to go with a Technics 1200 for that price range.

This is what I can offer you go to [www.needledoctor.com](http://www.needledoctor.com). They have a bunch of turntables you can take a look at and I'm sure you will find what you want.

You can find a Systemdek IIX in the \$300-\$400 range.
