Subject: Help finding a new Stylus

I have a Telex 304 EP and I'm trying to find a new needle for it. For the life of me, I can't find any info on it. It looks really similar to the Califone players they used to use in schools - for which they recommend the Pfanstiehl 911-D7 - but it doesn't look right.The player is 4-speed and the needle flips from standard to 78. Any help, or suggestions for places to visit in Los Angeles, would be greatly appreciated.
