I'm just a newbie here so be patient with me if I ask a "stupid" question. I just recently ran across the planar concept. Are planars within the reach of the average DIYer? If so, where can I find information on design and drivers, and do any of you have any experience with them?TIAPete K

Look in the Planar forum. There was a link or two I saw there in some posts some time ago about DIY planar speakers.

lot of interested people at the diyaudio.com site under loudspeakers-esl. Also at the esl forum at this address

<http://forums.delphiforums.com/n/main.asp?webtag=ESLForum1&nav=start&prettyurl=%2FESLForum1%2Fstart> . Best regards Moray James.
