Subject: I need to locate a custom speaker builder/company or someone to just exchange a coil for me Posted by Matthew on Mon, 05 Sep 2005 20:34:01 GMT View Forum Message <> Reply to Message

I need someone to modify a couple of speakers I have with faraday ringsthis is more or less something I'm looking to do in the next couple of months not necessarily right nowl need a person... fairly easy to talk specifics with (nobody hard to reach and such) that can add compensating coils to 4 speakers...TC sounds is the only place I know of which does this kind of work... but now that the forum dude is not working there I can't seem to get ahold of anyoneanybody know a person or know of someone with enough knowledge to swap the coil?

Are you going to remove the magnet and modify it, adding a shorting ring? Or are you planning to work on the voice coil? If the former, you need a machine shop. If the latter, a place that does recones can do the work for you.
