Hello: I have a questions, but I am not sure ...I like the design of the Orions, but seems a lit bit complex, can you use them with a behringer ultra curve pro or deqx(havin the crossover in the digital domain). The are several companies that are doing just that.eg BESL 5.Thanks

I'd use them with the crossover/eq designed by Mr. Linkwitz. He designed it for these drivers, nocthes & all. -akhilesh
