I have a Jensen G610 speaker and the paper cone is separated at the center and all around the edge. It's just sitting there unconnected. Is it possible to have this speaker repaired, and if so are there any recommendations of shops in the San Francisco Bay area. Any advice is appreciated, Thanks, David

Try David Miller at Speakerworks, (918) 664-6299. He may be able to help.

Did you have any luck getting your speakers repaired? I have the exact same problem and can not locate anyone to work on them. Thank You
