We've had a few new exhibitors announce their intentions to be at GPAF, so please check the exhibitors and photos pages. I'll be listing them as I have time.Also, if you plan to make changes to your room, please contact Natalie Doss at the Embassy Suites. Some of you may not need any changes, since the room is like a home environment. There are couches and chairs that can be used by guests when listening. If you want the television moved out or anything like that, please contact Natalie in advance and she'll be happy to make arrangements for you.

Gee, you mean I won't be moving a queen sized bed into the bathroom at midnight as I did at MAF? What fun is that? ;-pThat's excellent! I'll need the rest since I'm going to do the drives down and back in two 12 hour days each. I was gonna take 3, but then I'd be away for 9 days, which is a little crazy. I'm not gone that long for TOPS Milan or CES Vegas!

The Tulsa Audio Club haas agreed to help folks carry too, so when you get here, you'll be greeted by a welcome committee. You can always tip with Audio Note capacitors and what not.
