Does anyone know about a old set of Paradigm speakers. I figure they are from the mid 80's or so. The label on the back just lists them as "Model: 11S". They are 6 ohms as well. Any info on these speakers. All I can find online talks about Monitor 11. Are these the older version? Any info would be great

The Paradigm Monitor line has been given various suffixes over the years, i.e. SE, MKIII, etc. The first models were made in the early 1980s and SE versions were made in the late 1980s.
