Hi all, Have updated my horns page so previous link no longer valid. As well as info on latest mid horn experiments, there is info on some of my past mid and bass horns, plus some ramblings on what I might do this year. May be of some use or interest to some of you. Cheers

My Horns page

Great pictures and info re: design process! Actually affordable measurement systems available since my PA cab building days (late 1970's). Thanks Jeff

Uhh, what? Am I missing something?
Misunderstanding perhaps?

Hi Loner (moderator?) Sorry for jumping to a conclusion when I tried to find post 216, earlier today I got a "cannot find" intercept response by the server. <http://www.audioundtable.com/HighEfficiencySpeakers/messages/216.html> I also got the same intercept when I tried to find post 218 <http://www.audioundtable.com/HighEfficiencySpeakers/messages/218.html> Deletion is what usually caused this when I cannot find the post either on the forum or the direct link from my browser's history cache. Thanks for removing my duplicate post, darn that Back button! Jeff Robinson
