Bill,Saw your Firenze at George's place (REPLAY) today. Gorgeous piece of work. Didnt' get to hear it though, but I'll push for a listen next time I drop by again. The 500Hz horn you have on there. Is that one of the standard horns you sell, or it found only on the Firenze?Gar.

Thank you. For some reason I always thought you lived in the Boston area. I get to Toronto now and then, we will have to meet at George's sometime. Those can be very nice speakers, though with the TAD 1101 in in them, they need a subwoofer to make a complete system. Bill

Love to meet up next time you're in town. When (or if) the Breeze launch, would that make the trip easier at all, by cutting across the lake?Gar.
