Have you tried posting on the Altec Users Forum. He usually replies pretty quickly. Within a day is common.

-----What's the big deal? The Iconic 704
is an upgraded and improved 604k. End user price is \$715 each. I have a set of NOS 604k's in my
Stonehenge boxes. I will be replacing them very soon with the Iconic's.

The new price sheets, along with a conversion chart from old Altec to Iconic products (where applicable), is now complete and being distributed. Contact me directly for a copy.Thanks for your patience.
