you can find almost nothing on these drivers, I thought it might be worth posting a link to a dealer site I just found.
GOTO - If you have to ask "how much"...

C'mon cheapskate, it ain't that much. 8,600 euros each, go with the two driver/double throat - that's only 19,000 euros - just a little over $24,000 plus shipping. Of course you'll have to make your own horn.But that's still 40% less than you'll pay for stuff from the big boys.
The good stuff.

I know; someday I swear I am going to get serious about this. Really.I just have to sell a couple of the Renoir's and the 1936 Bugatti Royale. That should get me a modest set-up.
