Akhelish, It took a little doing but I did get the carpet into the boxes and they now make some bass!---Very clear and detailed----much improved ---better image---think I will build a better looking set now that I have all the tools to make a set that I can finish on the outside----drivers still need a week or more playing time as they only have 25-30 hrs running time--- Thank you for the advice---Jim

Glad to hear that Jim. Again, if you do need more bass, try a music subwoofer. Wuld love to come by and listen to them someday, and you are welcome to come by and listen to my full range drivers too!-akhilesh
