Phil, Wayne and I have been e-mailing about the next Audio-thon and if you and I could get it together to get these filters made so I could get them installed in my speakers maybe you and I could cook something (I've got 2 grills & a decent smoker and used to run restaurants too ) and we could do an afternoon/evening at my house---it a little small but we could manage it think---and I don't have to arrange things with kids or wifey either ( as I have neither !) I'm thinkin' last week of Mar or 3rd Sat of Mar---what's your thinkin' here-----Jim

I may be out of town the last weekend of March, but the 3rd Saturday looks good. I have a new batch of home brew I can bring. Sounds like everyone will the talking about your BBQ after this one.

I am hosting a listening date at my home the 3rd Saturday of March---details will follow---times directions dress code, all are welcome --I live in Tulsa -----bring friends or family ----hope to have a pair of Martin King designed BR boxes done with FE 206E (becoming more infamous by reputation!) Phil may brings his 1.3's so we should be able to actually hear this driver from a couple of different formats---Jim Denton
