Hi Jim!I'm looking forward to seeing you and everyone else there.You're planning to start around 2:00pm, right? I assume everyone should bring a dish for a pot-luck thing.I'm planning to bring my Paramours with Valve Art and Electro-Harmonix tubes so we can swap 'em and listen to the difference. I may also bring my new midrange horns, but unless I bring woofer and tweeter subsystems, it would be hard to evaluate the mids alone. So this might wait for the next meeting, we'll see.Wayne
