Hi,'MEGARON' Music Hall in Athens-Greece has started a series of recordings of Greek Classical Music Composers and the works that 6 members of A.C.A. witnessed recorded, were composed by Manolis Kalomiris (1883-1962) 'TRIPTICHON' (composed 1936), Symphony PALAMIKI and "2 GREEK DANCES". STATE ORCHESTRA OF ATHENS (ASO) was conducted by Byron Fidetzis. Musical recording assistant was Philippos Tsalahouris. The recording was performed by Themis Zafiropoulos and the recording team of the 'Megaron' Recording Center. This is also an historical moment, since this recording session was the first official recording towards discography of the best and oldest Greek Symphonic Orchestra!
